Grading and Condition

Superb	Extraordinary item in the finest condition.
Extremely Fine	Outstanding and exceptional quality.
Very Fine	Choice, first-class condition.
Fine-Very Fine (F-VF)	Stamp or cover in sound condition; if a stamp, it is slightly less well-centered than Very Fine but better centered than Fine.
Fine	Sound in all respects. Perforated stamps will have the designs clear of the perforations; the designs of imperforate stamps will not be cut in to any significant degree.
Very Good (VG)	Imperfect centering (stamps) or poor general appearance.

Any stamp faults such as a thin spot, tear, crease etc., will be described at all times. Postally used covers should be expected to have the normal degree of wear associated with them and this wear is not grounds for return. The grade of a cover is independent of the grade of the stamps on it. Covers from the famous Carroll-Hoy correspondence will normally have a small unobtrusive staple hole. In lots containing several items, degrees of condition denote the overwhelming average and examples above and below such condition can be expected.

Terms of Sale

Bidding

I. All bids (whether by floor bidders, mail bidders, or telephone bidders) will have a premium of 18% added to the auction sale price.

II. All bids are per lot as numbered in the catalog unless otherwise announced by the auctioneer at the time of sale. The right is reserved to withdraw any lot prior to sale, to divide a lot, or to group two or more lots, or to act on behalf of the seller. Schuyler Rumsey Philatelic Auctions, Inc. will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids. Schuyler Rumsey Philatelic Auctions, Inc. is not liable for bidding errors related to live auction internet bidding and/or the loss of internet connection during the live auction.

III. The highest bidder shall prevail; lots are sold at one increment over the second highest bid. Should any dispute arise between bidders, the decision of the auctioneer as to the successful bidder and the reoffering or resale of the lot under dispute shall rest entirely on the judgment of the auctioneer. The auctioneer shall regulate the bidding and reserve the right to refuse any bid believed by him not to be made in good faith.

IV. Consignor has and retains the right to bid personally, or by his duly appointed agent, through the auctioneer, unless the sale is advertised and announced as one restricting such bidding by consignors or their agents.

Payments of Purchases

V. FLOOR BIDDERS. Floor bidders shall furnish the auctioneer their names and addresses prior to bidding on any lot. The name and address of the buyer of each lot shall be registered with the auction house following the sale of each lot. Payment of the whole purchase price shall be made by the floor buyer in such manner as the auctioneer may determine. Special credit arrangements must be made prior to the sale.

VI. MAIL BIDDERS. A successful mail bidder will be notified of lots purchased and must remit payment before the lots are sent. Auction bills are due and payable upon receipt of notification. If buyer's payment is not received within ten (10) days, Schuyler Rumsey Philatelic Auctions, Inc. may resell all lots without notice. Any and all losses incurred as a result of resale will be passed on to the defaulting buyer. Cost of postage, registration, etc. will be charged to buyer. Proof by the auctioneer of receipt of sending at the advised address shall constitute delivery.

VII. DIRECT DRAFTS/TRANSFERS. A successful mail bidder known to us may contact our office at (415) 781-5127 for the information necessary to pay directly into the vendor bank account. Any additional charges resulting from processing payments by this method shall be borne by the buyer. Method of payment should be noted on the bid sheet.

VIII. Title shall not pass to the buyer until full payment is received by Schuyler J. Rumsey Philatelic Auctions, Inc.

IX. All of our lots are sold as genuine. Lots accompanied by recent (within 5 years of sale date) expert certificates are sold "as is" based on the description in the certificate. The aforementioned expertized lots may not be returned under any circumstances including those instances in which subsequent certificates yield conflicting opinions. The accepted authorities for U.S. stamps are the Philatelic Foundation (P.F.), the Philatelic Stamp Authentication and Grading, Inc. (P.S.A.G.) and the Professional Stamp Expertizing Committee (P.S.E.). **In addition, a lot may not be returned because an expertizing service grades a stamp lower than the grade stated in the description, or differs from the accompanying certificate.**

X. The Auctioneer must be notified within 5 business days from the date of the auction of any request to place a lot on extension for expertizing. All extensions must be paid in full, in advance. There will be no exceptions and no lots may be returned under any circumstances if this term has not been strictly followed.

XI. All lots on extension must be submitted for expertizing by the auctioneer exclusively. Each lot is sold as genuine, except those described "as is", but when, in the opinion of a competent authority acceptable to Schuyler J. Rumsey Philatelic Auctions, Inc., the lot is declared otherwise, the purchase price will be refunded in full. The lot must be received by Schuyler J. Rumsey Philatelic Auctions, Inc. within a period of 21 days from the date of auction. Expenses incurred for purposes of expertizing shall be borne by the purchaser except where the lot is found by said competent authority to be materially not as described, in which case the consignor will be responsible for expertizing costs incurred. Proof of the inability of said competent authority to express a definite opinion is not grounds for return of an item.

XII. Any lot, description of which is incorrect, is returnable (A) within three (3) days of receipt and (B) if received by Schuyler J. Rumsey Philatelic Auctions, Inc. within twenty-one (21) days from the date of the auction. All disputed lots must be returned intact, in the condition received; no adjustments will be made. The following lots are not returnable: lots containing ten (10) or more items; lots from purchasers OR THEIR AGENTS who had the opportunity to examine them before the auction; items described as having defects or of a quality standard "Very Good" (V.G.) or below; lots with disputed centering or margins when the item is photographed; lots described "as is".

XIII. JURISDICTION. In the event of any dispute between the auctioneer and bidders, or between any parties requesting inspection of any of the lots and the auctioneer, or between persons offering their lots to be auctioned and the auctioneer, the jurisdiction over the dispute shall be in the City and County of San Francisco, State of California.

XIV. In the event of any dispute, the prevailing party shall be entitled to court costs and reasonable attorney's fees.

XV. The California State Sales Tax - or that of another state as ordered by the laws of such a state (as appropriate) - is payable by buyers liable to tax. See below.

Sales Tax

This sale will be held in California and the buyer will be liable for any applicable sales tax for this auction. Any lots purchased by buyers in California or that of another state as ordered by the laws of such a state are subject to State Sales Tax unless:

1.) You have a verifiable resale license number, which must be on file with us prior to the Auction.

OR

2.) You are not a California resident or that of another state as ordered by the laws of such a state are subject to State Sales Tax and your lots are being shipped to your out-of-state or out-of country mailing address.

THE DR. MANUEL IGLESIAS COLLECTION OF MEXICO FIRST ISSUE: A PERSONAL NOTE

Sometime in the late 1980's two very fortuitous philatelic events occurred for me. I was searching for a new area to collect and while judging the national exhibition in Tucson, I was attracted to an exhibit of Mexico's first issues - the 1856-1861 Hidalgos. This issue met my criteria of an imperforate classic issue, great postal history, and unusual and unique cancellations. When I returned home, I visited a dealer friend in Chicago and purchased a mixed lot of these stamps. Then it just so happened that there appeared an ad in our local newspaper offering Mexican stamps for sale. I responded to the ad and much to my pleasant surprise, the gentleman who placed the ad lived only ten minutes away! He invited me to visit and I brought the stamps I recently purchased.

We examined the lot on the dining room table and he pulled out a stamp and asked me, "Do you know what this is?" to which I replied, "a one real 1856." He then pointed out to me the cancellation was "Polotitlan", a very rare cancellation! The gentleman was Dr. Manuel Iglesias. Finding a rare cancellation in the lot that evening hooked me on collecting first issue Mexico and meeting with Manuel was the beginning of our friendship which has lasted all these years.

Besides becoming a dear friend, Manuel was my mentor and teacher. A collector from his youth, Manuel was passionate about collecting Mexico. We spent many evenings together where I learned about district overprints, rates, cancellations, printing varieties, and the inevitable fakes and forgeries. Over the years, his constant nudging and challenging me on aspects of Mexican philately eventually resulted in my forming an important collection of Mexico First Issues and even eventually joining him on the MEPSI Expert Committee.

Manuel is a "private" collector which follows from his easy-going, quiet demeanor. He was not interested in exhibiting or judging. He would attend an auction and an exhibition at times to socialize with other collectors, but he relished in having his quiet time where he could devote himself to the study of his stamps. However, I should note he has been always available to anyone with questions and is generous with his time in responding to all with his knowledge and expertise.

For Manuel, parting with his Hidalgos was no easy decision. But the time has come to move on. It is doubtful that the present generation of collectors of classic Mexico will have another opportunity any time in the near future to acquire the rare and yes, even unique, examples from Manuel's spectacular and comprehensive collection. Manuel's keen eye for the rare and elusive will be evident throughout. Many of the stamps and covers may look familiar because they once graced the great collections of Tena, Backal, Paliafito, Chapman, Larranaga, Quast, Bash and Mazepa. But then there are also new discoveries which will come to the market for the first time.

Manuel will continue to serve on the MEPSI Expert Committee and share his wisdom, knowledge and passion for Mexican philately with the rest of us.

Thank you, Manuel!

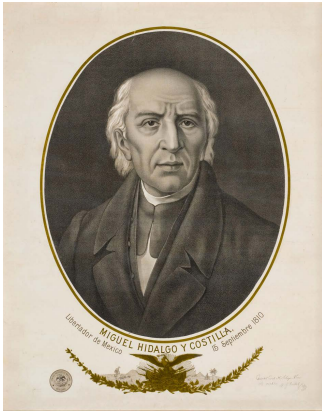

Dr. James Mazepa, RDP

This is the finest collection of the Hidalgo Issues we have ever offered and is a unique opportunity for the seasoned collector or anyone who has ever thought of starting a new area.

I would like to thank all those who have contributed to this catalog, in particular Mr. Nicholas Follansbee, and Scott Wieduwilt of my staff. Most of all, I would like to thank Dr. Iglesias for his confidence in my firm to handle the sale of his beloved collection. I have greatly enjoyed spending the hours together pouring over his life's work.

Schuyler Rumsey

The 1856-61 Hidalgo Issues

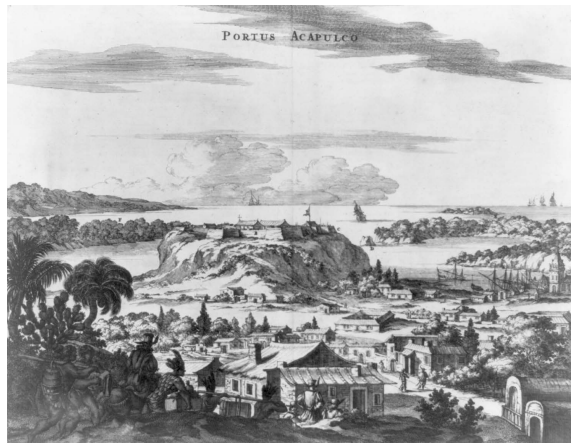

The design of Mexico's first stamps - a series of five denominations issued 1 August 1856 with a change of colors in 1861 - featured Miguel Hidalgo y Costilla whose call to arms in 1810 initiated Mexico's struggle for independence from Spain. Independence was achieved in 1821 but thirty-five years later when the first stamps appeared, the nation was still in turmoil, soon to erupt into three years of civil war. As a security measure, stamps (stocks being vulnerable to theft in transit) were considered invalid until they arrived at district *administraciones* where they were validated by the district name applied (usually) with a handstamp. To the great delight of future philatelists these district overprints diversified the five stamps into a much larger and immensely challenging specialty. A further level of complexity, challenge and beauty was added by cancellations applied with devices created by local postmasters. These

district overprints and town cancels are the focus of the outstanding collection formed by Dr. Iglesias which we are proud to offer here. Not since the sale of the Mazepa Collection in December 2000 has one this comprehensive and replete with famous rarities been offered at auction.

By the first months of 1861, the War of the Reform had so compromised postal security that a change of colors for the five denominations of stamps was ordered. The "1861 Issue" was issued April 20th and is, if anything, even more difficult to complete than the 1856s.
